## COMMERCIAL PROPOSITION

CLIENT: GOVERNMENT OF THE UNITED STATES OF MEXICO

Executive summary

## EXECUTIVE SUMMARY

Commercial Proposal for the Government of the United Mexican States

Subject of the proposal: Construction of a 20-storey building in downtown Mexico City

We have the honor to present our proposal for the construction of an office building in downtown Mexico City. This project will include:

- The 20-storey construction, including high-end offices, common areas such as meeting and reception rooms, a gym and a roof garden, as well as underground parking spaces.
- The use of superior quality materials, such as wood, steel, concrete and glass, to ensure the durability and safety of the building.
- The implementation of an efficient energy and water management system, in order to reduce operating costs and comply with environmental standards.

**Total amount of the project: 157,000,000 Canadian dollars**

Our team, made up of experienced and passionate professionals, will be at your disposal throughout the construction to ensure quality follow-up and answer all your questions.

We hope that this proposal will meet your expectations and we remain at your disposal for any further discussion or clarification.

All the documents associated with this project will be delivered to you personally by an Aediwood representative, in particular:

- Presentation of the Aediwood company
- Nature of the contract and legal considerations
- Project display
- Artist's plans and views
- Terms and prices
- Calendar
